Reasons for Allowance

1. Applicant's amendment filed September 13, 2005, has been entered and made of record.
2. The examiner points out that the office action mailed on August 16, 2005, was incorrectly marked as a non-final action on the Office Action Summary (PTO-326), and was intended to be a final action. This intention is evident in the conclusion of the office action.
3. The following is an examiner's statement of reasons for allowance:

Independent claims 43, 67, and 70 are allowable over the prior art of record. Claims 44-45 depend from claim 43, claims 68-69 depend from claim 67, and claims 71-72 depend from claim 70, and therefore are allowed.

Independent claims 43, 67, and 70 recite the limitations of: a timing of the notification is determined based on a date at which the addition level correction was last conducted and a utilization state of the image processing apparatus. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest reference to Cox et al. (US PN 6,154,571) discloses an anti-forgery method of forming an image including adjusting the addition level of a watermark to be added to an image.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
